SKIOLD MAKES THE DIFFERENCE!

Simple, dependable and durable - these are the characteristics of the feeding, ventilation, grain seed corn and milling plants from SKIOLD. Since the start in 1877 we have done our best to make SKIOLD to the trustworthy choice whenever it comes to high quality and good business economics.

SKIOLD A/S are among the largest manufacturers of agricultural machinery in Northern Europe, and we have more than 100 years of experience in the manufacturing and sales of special equipment for production and handling of animal feed, pig feeding and ventilation systems.

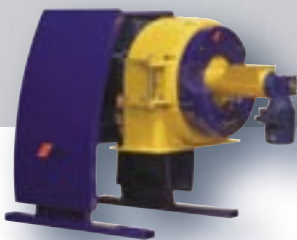

60 years of experience on the world market means that we know the various market mechanisms and trade methods in Eastern Europe, Africa and Asia. However, although we export to the whole world - approx. 50% of our production go

to foreign countries - SKIOLD will always be a company with close contact to the proper experts - i.e. the users.

SKIOLD A/S are part of a group of several subsidiary companies. All companies complement and inspire each other, which also promotes the development of new products.

SKIOLD A/S will also in the future be the reliable co-operation partner of our customers.

*Let SKIOLD be Your partner now and in the future
- we make a difference!*
